DNA TEST FOR LATE ONSET ATAXIA

Registered Name: Alice vom Moosstadl/D
Registration Number: VDH/KFT 26/0004987
Microchip/Tattoo Number: 276097200750748
Breed: **Parson Russell Terrier**

This dog is CLEAR of Late Onset Ataxia

Authentication code: AC1974558

Explanation of terms:

These dogs have two normal copies of DNA and are likely to be clear of LOA. The results of our research suggest that there may be other causes of ataxia in the breed so we cannot exclude the formal possibility that clear dogs could develop a genetically different form of ataxia due to other mutations that are not detected by this test.

Result authorised by: Dr. N. G. Holmes (Genetic Services Manager)

Test completed: 4 March, 2013

Result only applies to sample supplied
